Common Core Standards (Grades 9 & 10)

CCSS.ELA-LITERACY.RL.9-10.2

CCSS.ELA-LITERACY.SL.9-10.1: Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9-10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

CCSS.ELA-LITERACY.SL.9-10.1.A: Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.

CCSS.ELA-LITERACY.SL.9-10.1.C: Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.

CCSS.ELA-LITERACY.SL.9-10.1.D: Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

Learning Objectives

1. Students will demonstrate their ability to discuss themes related to *The Great Gatsby* and *Finding Jupiter* while following the Common Core Discussion guidelines and agreed upon classroom norms during a discussion.
2. Students will actively listen to their peers and share supportive feedback.
3. Students will evaluate evidence presented by their peers and respond with appropriate questions or comments.

Preparation (5 minutes)

- Arrange the classroom for a Socratic seminar: There should be a small inner circle, with room for five or six students, and a larger outer circle where the rest of the students will sit when not participating in the discussion.

Instructions

1) Seminar Preparation (10 minutes):

- When students enter the classroom, have them sit in the outer circle while you explain the agenda, objectives, and directions for the day.
- Instruct students to find their Socratic Seminar Preparation worksheet and place it on their desk or table, so that you may check it for completion.

- Remind students that they will participate in a Socratic Seminar today about themes from *The Great Gatsby* and *Finding Jupiter*. and that their discussion will be based on prompts from their worksheet. They will be placed into small groups, and each group will be given a prompt: Each group member should explain their reasoning and evidence in response to the prompt. Once each person has had a turn, one group member should ask one of the questions they wrote on their worksheet in order to keep the conversation going. If the conversation stops, then someone else should ask another question. Students should follow the agreed upon discussion norms, which were created yesterday.
- Answer any questions that students had from yesterday's Exit Ticket and any other remaining questions.
- Next, create six small groups of five to six students (one group for each prompt on the worksheet). You may have students count off from one to six, have them draw a number out of a hat, or volunteer for which prompt they would like to discuss.
- Remind students of the format for today's seminar: The group discussing will sit in the inner circle. Outer circle members should be paying close attention to the discussion and writing down notes on a blank piece of paper. Outer circle members should write down any thought-provoking comments, strong discussion starters, and/or excellent evidence they heard. Each discussion will last roughly 10 minutes. A timer will be displayed on the projector screen for students to see. At the end of each round, the outer circle will have two minutes to share highlights from the discussion.
- Have Group One move to the inner circle, taking their worksheets with them.
- You should find a seat outside of the circles at either the front or back of the classroom.

2) Socratic Seminars (65–75 minutes)

- On your cue, the students in Group One will begin the discussion, responding to the prompt, "Love at first sight is possible."
- Be sure to start the timer.
- Observe the discussion and complete the Academic Discussion Rubric for each student while they are participating in the seminar.
- When the discussion is over, ask for two or three shout-outs from the outer circle.
- Once shout-outs are over, direct Group One to move to the outer circle and direct Group Two to move to the inner circle. The seminar will continue in the same format for Groups Two through Six.

3) Conclusion and Exit Ticket (5 minutes)

- Once all groups have finished their discussion, collect discussion notes while students respond to the following prompt: "What is one thing you felt you did particularly well in the Socratic Seminar and why? What is one thing you would like to work on for future seminars and why?"
- Students may turn in handwritten Exit Tickets or submit them on the school's learning management system, such as Google Classroom.

Assessment

- Summative: Teachers will assess students' ability to identify, analyze, and discuss themes from *The Great Gatsby* and *Finding Jupiter*.
- Summative: Teachers will assess students' ability to participate effectively in a collaborative discussion using the Common Core standards for Comprehension and Collaboration.
- Formative: Teachers will assess the responses submitted on the Exit Ticket.
